

Handheld Terminal

Overview

This Handheld Terminal is a compact and versatile mobile smart card reader. The design concept is very ergonomic to provide the ease of user without extensive training.

The advanced power management of the Handheld Terminal ensures that the battery can last for a minimum of 5 hours continuous usage. This is highly critical for the nature of usage of mobile devices in supporting mission critical activities.

We can customized the device to program to suit to customer requirement.

HANDHELD TERMINAL

SPECIFICATIONS

Items / Specs	Handheld Terminal
